

THE ‚RES PUBLICA‘

„1. What is public and why should something be in public responsibility? Which criteria, and theoretical and empirical arguments are relevant to determine whether the provision, and financing of a good is a public or private responsibility, or a mixture of both?

2. Who determines what is public and what is private? Which actors do what? And why are they doing this? How is the public intervention justified? How can one decide whether there is a role for public intervention, and given there is a role for public intervention, who intervenes and how?“

(Excerpt from the introduction to the book „Public or Private Goods? Redefining Res Publica“, ed. B. Unger, D. v.d. Linde, M. Getzner Cheltenham, Edward Elgar, 2017)

Egon Matzner Prize of Socio-Economics 2017

In 2017, the Egon Matzner Prize of Socio-Economics will be conferred for the sixth time. The award is presented to young scientists for their publications in the fields of socio-economics, heterodox economics, evolutionary economics, institutional economics, public finance and fiscal federalism, and/or infrastructure economics and policy. The Prize is awarded by an international jury, and funded by the Center of Public Finance and Infrastructure Policy (IFIP).
